Teriostar LP-1040 Wide-Format MFP

OKI®

Small size. Big output.
Outstanding print quality & speed.

In professional reprographics or CAD environments, time is money. Teriostar LP-1040 MF wide-format LED printers and scanners from OKI deliver the ultimate network print solution for rapid-track workplaces with phenomenal speed, rugged dependability and best-in-class productivity.

Faster Printing
Ultra-fast: 7.5 Ds Per Minute Print Speed

Engineered with a super-fast LED engine, the Teriostar LP-1040 offers the fastest print speed in its class and uses parallel processing—one job prints while another is processing—which delivers continuous high-speed printing and eliminates costly delays between prints.

Faster Scanning
Efficient: 9.4" Per Second Scanning Speed

Quickly scan black and white and color documents—even at 600 dpi high-density output. An advanced dual-light CIS scanning sensor system improves scanning quality of all types of paper documents – even those with folds and wrinkles – automatically. Full control from the front panel supports all scanning and copying functions including scanning to Job Boxes on the hard drive or scanning to PDF files that can be placed in up to 100 shared network folders.

Superior, High-density Image Quality

Teriostar's print quality is exceptional with high resolution and excellent line acuity, accuracy and repeatability.

Maximum Uptime & Productivity

The Teriostar LP-1040 offers the industry's only user-replaceable process cartridge and charge wire: Product owners can change the entire process cartridge/drum and charge wire at any time, reducing emergency service calls, related expenses and downtime.

Compact Size

Up to 40% smaller than competitor models, the compact LP-1040 can operate in tight spaces—even against a wall. All controls and paper functions are managed from the front, with an 8.5" color touchscreen that displays scanned images for ease of use.

LP-1040 Multifunction

Teriostar LP-1040

Low Cost of Ownership

While Teriostar printers utilize advanced technologies to deliver industry-leading speed, image density and innovation, the cost per square foot is low and product reliability is high.

Powerful Network Software

Teriostar's intuitive software, TerioStation 2, delivers complete network access to the copier. Send jobs, collated sets, or multiple files to the printer from anywhere on the network using a wide array of common file formats including TIFF, PDF, HP-GL/2, JPEG, CALS, PLT and more.

TerioStation 2

Value-Added Features

- **Dual Output Paths**
  Automatically sends small prints up to 12" x 18" to the upper tray and large prints to the lower exit.

- **Clean Hands Toner Fill System**
  Holds up to three "clean hands" toner cartridges in high-capacity compartment.

- **Automatic Roll Detection**
  Detects paper roll width when roll is placed in drawer and automatically selects the appropriate paper and roll size at time of print.

- **Multiple Grayscale Dithering Patterns**
  Choose from four dithering patterns for better grayscale fills.

- **Internal Hard Drive**
  Provides large storage capacity and facilitates parallel processing without slowing the printer.

- **PDF Printing**
  Print standard PDF files without buying additional software; also scan directly to PDF files. An optional Advanced PDF print module offers the industry's fastest PDF processing while batch printing PDF file(s) larger than 60MB.

		LP-1040 Multifunction
Printer	**Imaging Method**	Electrophotographic Technology (LED exposure, single component type dry development OPC drum)
	Output Resolution	600 dpi x 600 dpi
	Continuous Output Speed	7.5 Arch D Size Prints Per Minute
	Print Width	Maximum 36 inches (914mm), Minimum 11 inches (279mm)
	Print Length	Maximum 32 feet (10 meters)[1]
	Print Margins	0.2 inches (5mm) From Each Side
	Paper Feed	2 Rolls (up to 36 inches wide)
	Paper Types	Plain Bond Paper, Vellum (75 g/m²), Matte Film (90mm)
	Data Formats	HP-GL, HP-GL/2, HP RTL, TIFF, CALS
Scanner	**Scanning Resolution**	600 dpi x 600 dpi
	Scanning Speed	9.4 inches (240mm) per second[2] B&W or Color
	Scanning Width	Maximum 36 inches (914mm) Minimum 7 inches (182mm)
	Scanning Length	Maximum 32 Feet (10 meters)[3]
	Data Formats	B&W: TIFF, PDF Color: TIFF, PDF, JPEG
Software	**Included Software**	TerioStation Network Client/Server
	PDF Capability	Basic PDF Printing Included, Advanced Ultra-Fast PDF Printing Optional
Others	**Memory**	2 GB
	HDD	320+ GB
	Interface	Ethernet (10Base-T / 100Base-Tx / 1000Base-T)
	Network Protocol	TCP / IP (ftb, lpr, socket)
	Logical Port	10 Ports
	Dimensions	47 (W) x 24 (D) x 45 (H) inches 1200 x 605 x 1145mm[4]
	Weight	<452 lbs. (205 kg.)[5]
	Power Voltage	AC120V 16 Amp. +/-10% (110v Version), AC230 +/-10% (220v Version)
	Power Consumption	Operation: Less Than 1.45 kW Energy Saving Mode: Less Than 16.5 W
	Warm-Up Time	4 Minutes or Less

[1] Print length depends on types of media or operating environment
[2] Scanning speed varies by resolution
[3] Maximum scanning length may be limited by paper size, resolution or file format
[4] Catch basket, tray and paper tray excluded
[5] Toner and paper excluded
